

DANCE EXTENSIONS

Musical Theatre

Musical theatre classes are rooted in the diverse history of Broadway musicals, and place a high focus on performance and musical interpretation. Dancers will learn choreography and other performance aspects from popular and age-appropriate shows. This fast-paced program will cover 2-3 different shows throughout the session across a variety of dance styles and genres.

Hip Hop

Hip hop encompasses a range of street dance styles primarily influenced by elements emerging in the early 1970s and popularized by dance crews in the United States. These high energy and exciting classes will give dancers the opportunity to try a new style or to deepen their experience through combinations and choreography. From fundamentals to freestyle, there is something for everyone!

Acro Dance

Dancers use Acro to complement choreography within dances to showcase their strength, flexibility and skill in the art. Similar to gymnastics with differences in transitions and technique, dancers will be able to transfer their new skills to on-state performances. Various levels of Acro develop skills like somersaults, handstands, cartwheels, bridges, aerials, and much more!
